

International Observe the Moon Night

Saturday September 19, 2015

Noon to 2:00 PM

AND

6:30-8:30 PM

North Dam Park

Grand Coulee

International Observe the Moon Night (InOMN) is an annual world-wide public engagement program that encourages observation, appreciation, and understanding of our Moon and its connection to NASA planetary science and exploration. Everyone on Earth is invited to join the celebration by attending an InOMN event.

As part of the 4th Annual Harvest Festival we will have FREE public telescope viewing of the daytime and night time sky!! From Noon to 2:00 PM and 6:30-8:30 PM we will explore the sky and view the sun, moon, and other planets.

Explore Earth's closest companion in space-the Moon. Sky Rangers will show you how to find your way around the day and night time sky. Bring your own binoculars, telescopes and lawn chairs and to dress to stay warm!

Enjoy a Saturday night under the Moon light!
